Dealer Comments
2011 Jeep Wrangler that still feels like something you want to drive. This used coupe puts the fun back into short trips and errands while giving you sensible safety: airbags, a security system and a tire pressure monitor that notices what you do not. Tinted windows add a bit of privacy and keep the sun from stealing cabin time. The Wrangler is straightforward to own and easy to like - take it for a quick look and see if it fits your routine.
